## PRESS RELEASE

Mühldorf a. Inn, 04.08.2020

### **New Plastic Connector ODU MEDI-SNAP® A5 with Break-Away Function**

#### **Portfolio Extension increases flexibility with additional configuration options**

Mühldorf am In. ODU is expanding its ODU MEDI-SNAP® portfolio with additional break-away versions. In many industrial and medical applications, fast availability and flexible connector solutions are becoming increasingly important. With the expansion of the plastic connector portfolio with additional versions of ODU MEDI-SNAP® with break-away function, ODU is increasing the level of configurability.

In addition to an angled version as well as the overmolded standard and system solutions, ODU MEDI-SNAP® now also offers a straight cap solution that is quick and easy to install and assembly. Using a new flexible collet system, a wide variety of cable diameters from 1.5 mm - 9.0 mm can be realized.

Learn more about the ODU MEDI-SNAP® Break-Away Portfolio in the catalog or contact ODU experts at [medi-snap@odu.de](mailto:medi-snap@odu.de)

#### **ODU Group: global representation with perfect connections**

The ODU Group is one of the world's leading suppliers of connector systems, employing 2,300 people around the world. In addition to its company headquarters in Mühldorf am Inn (Germany), ODU also has an international distribution network and production sites in Sibiu/Romania, Shanghai/China and Tijuana/Mexico. ODU combines all relevant areas of expertise and key technologies including design and development, machine tooling and special machine construction, injection, stamping, turning, surface technology, assembly and cable assembly. The ODU Group

A PERFECT ALLIANCE.

sells its products globally through its sales offices in China, Denmark, England, France, Germany, Hong Kong, Italy, Japan, Korea, Romania, Sweden and the US, as well as through numerous international sales partners. ODU connectors ensure a reliable transmission of power, signals, data and media for a variety of demanding applications including medical technology, military, communications and security, automotive, industrial electronics, and measurement and testing.
