# Switchcraft® Pro Audio

## NEW 2X48 SIZE

**THE LEADING UHD PATCH PANEL - NOW IN MICRO SIZE!** The Ultra VideoPatch™ from Switchcraft was the first video patch panel to offer 12G+ performance, suitable for resolutions of 4K, 8K, and beyond. Switchcraft has expanded this product line with a 2x48 micro size, providing substantial space and weight savings versus existing 2x32 mid-size panels. Connections between jacks are require patch cords or looping plugs.

### 12G+ HIGH-BIT VIDEO

An innovative design offers unmatched performance in a video patch panel, for video resolutions of 4K, 8K, and beyond.

### LIGHTWEIGHT DESIGN

The unique jack designs makes the Ultra VideoPatch™ lighter than traditional micro-size HD video jacks.

### SWITCHCRAFT QUALITY

For over 70 years, Switchcraft has been building high quality connectors and patch panels in their factory in Chicago.
